

INDUSTRY SKILLS FRAMEWORK: DIGITAL GLOBAL BUSINESS SERVICES (DIGITAL GBS)

DIGITAL GLOBAL BUSINESS SERVICES

GBS is an abbreviation for shared services and outsourcing enabled operating model, is an important focus for Malaysia, especially as one of our key initiatives is to strengthen our country's position as an ideal location of choice for digital services.

Malaysia, home to over 600 Global Business Services (GBS) companies, has proven its mettle in rising to the challenge of transitioning organisations into remote working arrangements.

For example, contact centres – one of the main components of the nation's GBS industry, have moved from business as usual to work-from-home mode within a short span of time.

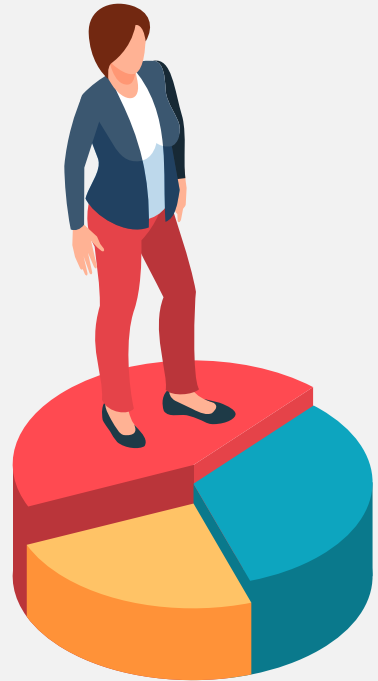

Now, GBS is fast becoming a value adding partner to the business by offering insights based on thorough understanding of services delivered, optimized by digital technology such as automation and data analytics.

GBS - BPO CAREER PATHWAYS

Global Business Outsourcing (GBS) - Business Process Outsourcing (BPO)

NOTE : Career pathways in Digital GBS is unique in the sense that talents are able to move across various roles & functions easily.

Career Pathway
